I needed help and motilium was perfect. i am better now and feel great. by arnoldo from fishs eddy, ny

I was prescribed motilium for an infection that occurred after root canal went bad. evidently the previous dentist had not been able to successfully remove all of the nerve and pulp and over time an infection resulted. motilium was well tolerated by me and helped to reduce the swelling within the gum until i was able to have a root canal retreatment in order to remove the rest of the nerve and pulp. the rating that i provided is due to the fact that this medication required 4 doses daily which i felt there must have been some other medication available that required less commitment. still, it did work and i would take it again if prescribed.
