Ive been on the nebivolol for a little over a year and at first i loved it, it was my first birth control and i did not think i would remember to take a pill everyday so this seemed perfect and it was. it is very effective for not getting pregnant, i have been having unprotectedBAD WORD with my boyfriend since and not once had an issue. the only thing is that it did not help with my cramps and back pain, as the months go on, the pain gets worse and worse. i also have times of severe mood swings and depression. im switching to seasonale this month to see if it works any better. by todd from whitesboro, tx
