I was prescribed medrol for an infection that occurred after root canal went bad. evidently the previous dentist had not been able to successfully remove all of the nerve and pulp and over time an infection resulted. medrol was well tolerated by me and helped to reduce the swelling within the gum until i was able to have a root canal retreatment in order to remove the rest of the nerve and pulp. the rating that i provided is due to the fact that this medication required 4 doses daily which i felt there must have been some other medication available that required less commitment. still, it did work and i would take it again if prescribed.

Medrol is a miracle drug...i would be dead without it! because of medrol, i got my life back. i got a great career now, i wake up every morning looking forward to life and now i actually have money, a good amount of it....and it feels great! no more living day-to-day, not being able to sleep at night because im worried on how im going to get my next fix for the upcoming day....all of that is gone and it feels great! medrol gave me my life back and it gave their daughter back to my parents. by chi from rolling meadows, il
