I've been taking nolvadex now for about 4 years, I haven't had any side effects that I can tell but after reading others' experience of memory loss, that could be one that I do have. I take the maximum dose that is prescribed now and I can't say enough about this medication. I was so totally lost, severe depression, suicidal, lowest of lows, it was so bad, I couldn't get my ducks in a row (my mother's comments to me, daily). I suffer from chronic ankle sprains, which I will be undergoing surgery to correct and after my most recent sprain that left me with 5 torn ligaments. My doctor put me on nolvadex and it has worked wonders. I am able to function during the day and it controls the pain well enough for me to get a good

nights sleep. by irwin from north washington, ia
