I have been suffering from strong tension headaches since the birth of my second son. daflon has been wonderful. daflon has taken the pain away quickly and has allowed me to be a more pleasant parent to my children and a nicer co-worker.

Daflon - (albuterol) side effects, dosage, uses ...

I was given a 10 day prescription after sinus surgery. the pros are 1) i only have to swallow one pill per day 2) it doesn't bother my stomach (other antibiotics have in the past) and 3) i've not gotten a yeast infection. the con is that it seems to totally dry me out. i take it in the evening, and my mouth/nose/lips are incredibly dry regardless of the amount of water i drink all night long. it is uncomfortable enough to keep me awake. i also experience dryness during the day, but not the same severity.
