Given a sample of the 8mg dose. flow improved dramatically after about 30 mins. effect lasts 2-3 days. there does seem to be a meaningful reduction in ejaculate. overall orgasm experience is somewhat less as a result. so, some tradeoff. in my case flow had become so poor it is one worth making. pyridium is expensive, so trying tamsulosin as an alternative now. 55 year old male with no other meaningful health issues.

Pyridium by cod

Pyridium is one of the best drugs ive ever been on. it has been amazing. being on it has made me feel so much more level. before taking it i never really knew how i was going to feel or how much things would affect me. i am currently on pyridium in addition to many other medications, but adding pyridium made me so much more sure of my emotions. i felt so much safer. it has really been wonderful. by alfonso from becket, ma
