Causes of leukemia by antibiotic erythromycin.

Soma worked great then that doctor would not take my insurance. so got another doctor and he would only give me flexeril or baclofen and both absolutely do nothing. i have a herniated disc and get muscle spasms in low back and buttocks they are hard as rock. this medicine with vicodin does help but it does make you very sleepy and dizzy so be careful driving. by jefferson from rosebud, mo

At first, i really liked erythromycin. its super easy to use and its nice to be able to forget about it for 3 weeks. i could feel it every now and then but it wasnt uncomfortable, just there. after one month, i ended up with the worst acne on my back and chest that i have ever had in my life. the acne was so bad, i almost thought it was a reaction. i took erythromycin out and within a week, my skin was clear again. i didnt have any other side effects besides the acne, but acne isnt something i can deal with. im switching back to pills. by domenic from la grange, nc
