Works great for anxiety. i will take 0.5mg if i am feeling a panic attack brewing, for prevention. full on panic attacks/anxiety i take 2mg and am fine within 20 minutes. will take 1-2mg before confronting a trigger (i.e long car rides). i take them only when i feel i need them. by cody from zoar, oh

I was born with a thyroid condition. i am 23 year old female. i did the other brand for a while, and made me tired, sad, and just made me feel hopeless. i am on emtricitabine 88mcg and although i sometimes feel sad, my weight is maintained, i'm able to work, and play with my 1 year old daughter, who thank god is healthy. finding the right dosage is so important and is a trial and error. if everything is good and you only have one symptom like sadness...get a hobby, again a close friend is so important and always take your pill!
