I tried the shot twice once on august 2010 and recently started again in may. first time was bad i had really bad anxiety and moodiness, which at first i thought it was hormones from having the baby. i couldnt lose weight even though i was exercising everyday. after the 3 months the first time no more moodiness like before when i was on it. i had also lose weight and things were back to normal. i wanted to try again because i only did it once but again it has been a bad experience. by hollis from lawrence, ks

I stopped taking vilitra 3 days ago and i am itching, itching, itching. my eyelids, hands, feet, legs, every area on my body itches. i took a benadryl and the itching went away and came back. am i having withdrawals from vilitra? no complaints though, just wondering because this medicine is a miracle. i am now hep c free. just hoping the itching would stop soon. by rodrick from kittitas, wa
