I was opiate dependent for almost 6 years. six years of my life that i hardly remember because i was in a cloud of oxycontin and other heroin like prescription drugs. about 6 months ago i was introduced to the glyburide program and ever since that day ive had my life back. i used to steal, lie and do whatever it took to get a fix. i lost my family, friendships, jobs, cars, everything. now over the last six months ive turned into a different person, the person i was before taking drugs. i would recommend glyburide for anyone who is dependent on pain killers. i would also however, recommend seeking counseling along with it to prevent any relapsing. by leonel from vinson, ok
