I took this drug and had no side effects. on the other hand, it didn't reduce my blood calcium levels.

I'm a senior with a low fixed income. i am ever so grateful to the careprost assistance program. i have very high calcium levels and this medicine has cut it in half, i used to get very disoriented, confused, overwhelmed but now with this medicine i feel close to normal. i have had a great experience with this medicine and have experienced no side effects.
