Cozaar anemia

My doctor started me on two doses daily (am and pm) in august, 2011. the second day on it, i was on a camping trip and developed an itchy rash on my lower arms and hands, and my lower legs. i didnt connect it to the cozaar so i went to my regular doctor and my dermatologist. the dermatologist told me to stop taking the cozaar and wait for my my cardiologist to come back in town. as it turned out i was having a sun sensitivity to the medicine. he cut my dosage to once at night and i have not had any more problems with a rash. however, a month or so after i started taking the medicine, i started having shaking episodes. i did tell my cardiologist the last time i saw him. it is mainly my hands shaking. by sidney from north east, md

What is the difference between hyzaar and cozaar

Soma worked great then that doctor would not take my insurance. so got another doctor and he would only give me flexeril or baclofen and both absolutely do nothing. i have a herniated disc and get muscle spasms in low back and buttocks they are hard as rock. this medicine with vicodin does help but it does make you very sleepy and dizzy so be careful driving. by jefferson from rosebud, mo
