My experience with metformin has been awesome. i have been using this medicine for about a year now and have has great results. i know have regular periods which is great because i used to get it every 15 days or miss months here and there. another fantastic thing is that i can now function when i am menstruating which used to be impossible for me due to the horrible pain. i now have manageable pain and don't have to get shots for it. i've also been able to lose 77 lbs that i had gained. overall i've had a wonderful experience with this medication. i believe that taking my doctor's advice was the best thing i ever did, i think the combination of the medicine, changed eating habits and exercise all helped.
