Eurax no physician

My insurance covered almost all of it. the medication works. hep c undetectable after just 23 days, again at 12 weeks. so far so good. extreme itching with eurax withdrawal for 3 days. scratched my skin until it

bled. ice cold water helped and nothing else. after 3 days, itching was gone. mentally the eurax had my brain in a fog for the entire 12 weeks. had two car wrecks back to back and had to stop driving. overall i would still highly recommend this medicine due to its effectiveness. what is 12 weeks in comparison to the rest of my life? i am hep c free. by van from hancock, ia

My doctor put me on eurax to help my sinusitis and also a tummy issue i've been having. so far so good. i feel better already with increased energy but i'm not sleeping. i have dry mouth but solved that by keeping a bottle of water by the bed. just took a sip every time i woke up (which was like every 1/2 hour).
