I just started the gel, which i choose because it does not cause high blood pressure and i did not want to take any more pills. so far so good. if you follow the directions, and rub the gel in until your skin is dry, there is no sticky residue. i then just put regular cream over the sight. im currently having some stomach cramping but im not sure if it is because of the medicine. by mitchell from springfield, la

I have been addicted to hydrocodone for 10 years; and recently my propensity to take a handful at a time almost killed me leading to my colon being. removed due to ischemic colitis, coma, and 8 weeks in hospital. i just went on accutane and am amazed at how well i am feeling. my body cannot take either

the acetoaminophen or the withdrawals so accutane was my only hope. i recently had a withdrawal event that landed me back in hospital for 10 days due to dehydration and malnourishment. my nurse told me about accutane and as soon as i was discharged i went for it. i am so glad i did. i never thought that hydrocodone could cause an illness like mine but it did. i can have life now due to accutane. by porter from lake hiawatha, nj
