After suffering with fibromyalgia for over 20 years i am so relieved to have found arimidex. i took an article i read to the nurse covering for my doctor and she read the reviews and gave me a prescription. i started with 50 mg per day and now take 200mg per day and have been taking it for almost 2 months! yes, i have had some severe sweats, but they are nothing compared to the pain, depression, etc. i have had for so long. even after reading the side effects and drug interactions i won't go off of it for anything. it is the first real relief i have had since they decided my pains were real. dr. had originally put me on cymbalta but i couldn't stand the way it made me feel--first week i was a mess and friends noticed big difference.
