Xyzal is one of the best drugs ive ever been on. it has been amazing. being on it has made me feel so much more level. before taking it i never really knew how i was going to feel or how much things would affect me. i am currently on xyzal in addition to many other medications, but adding xyzal made me so much more sure of my emotions. i felt so much safer. it has really been wonderful. by alfonso from becket, ma

I started taking lowest dose at 1.5 with a few side effects, headache, blemishes on my skin which became quite irritable and itchy. my blood pressure started at 220/140 dropping to 153/98 so doctors increased dose to 2.5 and now blood pressure between 143/98 134/88. i will speak to doctors again as i am suffering with tiredness and bouts of high blood pressure noticable with my face burning and cheeks flushing. i must be the unlucky one that has picked up side effects.
