I have been on hydrea for over 8 years and have actually gained weight. i have a very healthy lifestyle (exercise for one hour 5 days a week, and eat healthy), but nothing has been working. my endocrinologist consistently increases my prescription and nothing changes. next time i see her i am going to get on armour.

I have severe bone pain in my legs and frequent bowel movements up to fifteen times per day. parathyroid scan showed nothing abnormal. after taking hydrea only three days i saw marked improvement. after 28 day trial, pain in the legs is 80% improved, (am a multiply operated spine patient so did not expect 100%). bowel movements are more normal and once per day as they should be. this shows with just one month of treatment, that i do have parathyroid disease that was not picked up on scans. now i can pursue treatment through surgery.
