This is the third medicine ive tried. you rub it into your thigh or arm area (i couldnt do arms because i have tattoos and was told not to because of that.). it takes awhile to dry and is sticky. i was paranoid one of my dogs would get it on their skin, as they are always on my lap. one a scale of 1 to 10 if 10 is perfect, i would give this a 4. it worked a little, enough to notice, but not enough to be happy. i did not like applying it at all. i am now on santura and love it. see my review of that medicine. good luck! by irwin from iola, tx
