I've been taking levaquin for a sinus infection. i am on only my second dose, but yesterday after taking my first dose i felt immediate results. much less nasal discharge than in the days and even hours prior. i had no problems with sleep, in fact that night was the first time i slept through the entire night in weeks, without even waking up to go to the bathroom.

Doxycycline is not an nsaid.

I originally tried zanaflex 4 mg after a whiplash and it didnt help. later i still had some and accidentally took it one time and it worked. now i take the 6mg capsule as needed for muscle spasm and it has worked better for me than flexeril, soma, robaxin and several others. by leonardo from albin, wy
