Prior to my diagnosis of heart disease i suffered daily with what i thought was heartburn and indigestion. i ate tums like candy. sometimes it would get so bad i would chug a couple of diet sodas just so i could burp, which seemed to help. then i had a stress test which led to having a heart cath done. i have a 100% blockage in my rca and two other smaller blockages. once i started pancrelipase all of what i used to believe was heartburn/indigestion stopped. it is amazing. by todd from wolftown, va

My insurance covered almost all of it. the medication works. hep c undetectable after just 23 days, again at 12 weeks. so far so good. extreme itching with pancrelipase withdrawal for 3 days. scratched my skin until it bled. ice cold water helped and nothing else. after 3 days, itching was gone. mentally the pancrelipase had my brain in a fog for the entire 12 weeks. had two car wrecks back to back and had to

stop driving. overall i would still highly recommend this medicine due to its effectiveness. what is 12 weeks in comparison to ...
