Ive been taking zebeta now for about 4 years, i havent had any side effects that i can tell but after reading others experience of memory loss, that could be one that i do have. i take the maximum dose that is prescribed now and i cant say enough about this medication. i was so totally lost, severe depression, suicidal, lowest of lows, it was so bad, i couldnt get my ducks in a row (my mothers comments to me, daily). now, im feeling in control of my life, im back with my spouse and caring for my mother, whos ducks have scattered about, and im living happily. by quinton from ringling, mt

Zebeta with no prescription.

I have been on zebeta for over 8 years and have actually gained weight. i have a very healthy lifestyle

(exercise for one hour 5 days a week, and eat healthy), but nothing has been working. my endocrinologist consistently increases my prescription and nothing changes. next time i see her i am going to get on armour.
