Prior to my diagnosis of heart disease i suffered daily with what i thought was heartburn and indigestion. i ate tums like candy. sometimes it would get so bad i would chug a couple of diet sodas just so i could burp, which seemed to help. then i had a stress test which led to having a heart cath done. i have a 100% blockage in my rca and two other smaller blockages. once i started epogen all of what i used to believe was heartburn/indigestion stopped. it is amazing. by glenn from elba, ne

Epogen cats side effects.

This medicine helped me control my eating and to lose weight and bring my sugar down without dropping it to low. i was on another medication and it would drop my sugar too low and i was always having to take the sugar tablets to bring it back up. at first it upset my stomach but after a few weeks that was gone. it has worked very well for my husband also and has kept both of our sugars at a normal rate.
