Overnight buy spiriva online without dr approval,

I take spiriva for severe back pain and before that i was taking oxycontin which when i ran low due to insurance making you wait too the very last day, where i come from. i would start feeling sick like i had the flu, but with spiriva that does not happen. by howard from vera, ok

I tried spiriva with the starter pack. i experienced terrible nausea, insomnia, hot flashes, racing heart and fever. my doctor reduced the dosage back to 12.5 mg but with very little improvement of side effects. she finally told me to stop taking it. i have had great results with my other medications and i wasn't having any issues but my doctor wanted me to try this new "great" medication. i haven't felt this bad in years. if i were having problems i could understand her trying the spiriva with me but for me this medicaiton made me feel worse than i have in a very long time. i am relieved to be off of it. in the future if my other medications become less effective i might give it another shot.. but for now "no thanks";.
