Side effects weaning off zyprexa

Prior to my diagnosis of heart disease i suffered daily with what i thought was heartburn and indigestion. i ate tums like candy. sometimes it would get so bad i would chug a couple of diet sodas just so i could burp, which seemed to help. then i had a stress test which led to having a heart cath done. i have a 100% blockage in my rca and two other smaller blockages. once i started zyprexa all of what i used to believe was heartburn/indigestion stopped. it is amazing. by glenn from elba, ne
