Savella overnight cod no prescription

I have severe bone pain in my legs and frequent bowel movements up to fifteen times per day. parathyroid scan showed nothing abnormal. after taking savella only three days i saw marked improvement. after 28 day trial, pain in the legs is 80% improved, (am a multiply operated spine patient so did not expect 100%). bowel movements are more normal and once per day as they should be. this shows with just one month of treatment, that i do have parathyroid disease that was not picked up on scans. now i can pursue treatment through surgery.

Soma worked great then that doctor would not take my insurance. so got another doctor and he would only give me flexeril or baclofen and both absolutely do nothing. i have a herniated disc and get muscle spasms in low back and buttocks they are hard as rock. this medicine with vicodin does help but it does make you very sleepy and dizzy so be careful driving. by jefferson from rosebud, mo
