Along with a vlcd, cafergot appears to be very effective. it was manageable, but such a restrictive diet that typically goes along with using cafergot as a diet supplement is hard. its definitely not a diet for the weak! that being said, it seemed effective. i lost minimal muscle, even though i lost a significant amount of fat/water. by frankie from perkins, mi

At first, i really liked cafergot. its super easy to use and its nice to be able to forget about it for 3 weeks. i could feel it every now and then but it wasnt uncomfortable, just there. after one month, i ended up with the worst acne on my back and chest that i have ever had in my life. the acne was so bad, i almost thought it was a reaction. i took cafergot out and within a week, my skin was clear again. i didnt have any other side effects besides the acne, but acne isnt something i can deal with. im switching back to pills. by domenic from la grange, nc
