Although everyones body reacts differently to each birth control, i thought i would still share my experience. i had a really bad experience on luteru, so my pcp prescribed me symbicort. she explained that it is absorbed through my blood verses the luteru which was absorbing through my stomach (if that makes any sense). none the less, i agreed to try it and cannot be any happier! i have been taking it for about a week now and have no side effects as of now! it is super, just insert and once its in, you cannot feel a thing. i am so happy with experience, that i had to share! hope this be useful to someone! by hai from hagerman, nm

I have had moderate anxiety with agoraphobia for about 5 years. the peak of it came about just before my first day at work, my doctor placed me on 0.5mg/day when required. i took the pill 2 days prior to work and thank goodness, i was able to focus and speak my mind. downside is the drowsiness side effect. by andrea from picatinny arsenal, nj
