I tried the shot twice once on august 2010 and recently started again in may. first time was bad i had really bad anxiety and moodiness, which at first i thought it was hormones from having the baby. i

couldnt lose weight even though i was exercising everyday. after the 3 months the first time no more moodiness like before when i was on it. i had also lose weight and things were back to normal. i wanted to try again because i only did it once but again it has been a bad experience. by hollis from lawrence, ks

Great medicine. i was taking 2 or 3 nitros daily. took first arcoxia and pain just started going away. now i take 1 or 2 nitros a week. i have 4 blockages at 100 % and 1 at 60% and i hardly have any angina. i learned my limits on what i can do. but i still can drive and work a little in our yard. arcoxia is a miracle. by yong from havensville, ks
