I've been taking ovral now for about 4 years, i haven't had any side effects that i can tell but after reading others experience of memory loss, that could be one that i do have. i take the maximum dose that is prescribed now and i can't say enough about this medication. i was so totally lost, severe depression, suicidal, lowest of lows, it was so bad, i couldn't get my ducks in a row (my mother's comments to me, daily). now, i'm feeling in control of my life, i'm back with my spouse and caring for my mother, whose ducks have scattered about, and i'm living happily. by quinton from ringling, mt
