Levofloxacin acute prostatitis

After 6 weeks of taking ofloxacin, i find the relief effect wears down towards the 10th and eleventh hour. my dosage is 2 puffs morning, 1 puff evening. i m 78 years old, and an asthmatic for 76 of those years. compared to symbicort, ofloxacin "wears off" (as above) slightly faster. each is a good maintenance medication.

Ofloxacin is one of the best drugs ive ever been on. it has been amazing. being on it has made me feel so much more level. before taking it i never really knew how i was going to feel or how much things would affect me. i am currently on ofloxacin in addition to many other medications, but adding ofloxacin made me so much more sure of my emotions. i felt so much safer. it has really been wonderful. by alfonso from becket, ma
